This Months sees a slight change to the Southampton Ufo Groups newsletter with a new front cover. After many months of thought and a great cover designed by Lee Winterson of Skynet, I am proud to announce the new look ufo newsletter. Although the contents will not change that greatly (Although you will note one or two new items), I hope that you enjoy the forthcoming editions.

Editors Corner...

-----

I thought as everyone else has one, then why don't I.... As I read through my recent batch of press cuttings from January to March 1994, I suddenly realised how great ufologists, abductees and other people associated with the phenomenon, just slip away. Take for instance Ken Rogers who passed away in January 1994. Although Ken had some very contentious views, he was not afraid to put his head on the block and wait for the axe to fall. Yet, I have only come across two newspapers that noticed he had passed away. That was the Warminster Journal and the Western Daily Press. For someone who was on the ufo scene in the 1960's & the 1970's and formed one of the first ufo groups (British Ufo Society), just slipped away. Yet, when Ken was in demand back in the early days of ufology, he was the man to ask and talk to. Yet, when he died, they did not want to know.

Whilst reading the Guardian Newspaper (!), an article of the 10th February 1994 announced the death of a South African woman, who gave birth to an extraterrestrial love-child. The story became a book and the truth died with her. The woman in question is Elizabeth KLARER. She claimed that an alien named Akon landed his spaceship in Natal, seduced her, and took her to his planet. She returned after four months, but left the 'CHILD' there. Whilst you either believe Elizabeth Klarer's story or not, another person fades into the annals of the ufologists history books and the Ufologists of today lose yet another contact (If that's the right word) with the past, and who knows, maybe with the future. May they rest in peace (Where ever they are !!!!).

Life is too short to live in the past, & we must look to the future, and maybe in the future, we shall see the real face of ufology and the coming together of groups and researchers. And who knows, maybe such people as Ken Rogers, Dr Alan J. Hynek, Elizabeth Klarer and Aime Michell, may at the end of the day been right all along in their beliefs and ideology.

It makes me wonder how low some people will go to make a few quid !! My attention was drawn to an article that appeared in the News Of The World on Sunday 26th June 1994. It appears that the paper was 'Tipped off' about a private and personal matter concerning a leading ufologist. It makes me sick that

someone has had to resort to this, to possibly get their own back.

I am not going to print the article in my newsletter, as I feel it is not right to do so (Unless otherwise advised). I fully support the person in the article and I always will no matter what is written. I personally feel that this may not have the possible desired effect of wrecking the persons standing in ufology, but may work the other way.

If the person who tipped off the press ever reveals themselves, and if it has come from the ufology world, then I hope that person(s) are treated with the contempt that they deserve, in trying to possibly wreck the life / career of the person that the article concerned.

Over the past several months, many things have happened in the world of ufology, & isn't it time petty squabbles and empire building is stopped and all the ufo groups pull together as one, to try and solve the ufo mystery ?

OPRAH WINFREY SHOW 1.6.94 : Featured John E.Mack :  
-----

This was a lively discussion based around John E.Macks book, with invited members of the public to talk about their personal abductions that John has dealt with. It was a bit of conjecture throughout the program, and the discussion became heated during the programme.

JAMES WHALE SHOW 25.6.94 (1.25AM) :  
-----

When my good friend Roy Lake of the London Ufo Studies group phoned me up to tell me he was going to be on the James Whale show, I thought another innocent lamb going to its slaughter. But on the contrary, Roy came over very well, and James Whale did not, ridicule him about his ideas of current human abductions, and the audience was somewhat quiet. Richard Lawrence of the Aetherius society was also interviewed on the programme. When he got out his 'contract' stating that James Whale and the audience would not ridicule him/Aetherius society, I just could not help myself from laughing. If you cannot stand the heat, then get out of the kitchen is all I am going to say. Well done Roy, and I did hear that Roy had around 40 telephone calls following the interview.

SCHOFIELD'S QUEST : 26.6.94 :  
-----

This programme tried to solve those mysteries, of which up to now havenot been explained by anyone. The programme featured a video of a UFO and Philip Mantle of BUFORA asking for witnesses to the sighting. Also, someone phoned in saying that they had seen a similar object. Both items lasted about 7 minutes in all, and was a bit of a waste of time.

This edition looks at the Eureka Springs Conference, Multiple Abduction incident on spook light road ?, and much more. For more details, contact the above address.

UFO MAGAZINE : Vol 13 No 2 July/Aug 1994 :  
-----

This magazine hit the news stands of Britain with this issue, and oh boy what an improvement. This edition has a full colour cover and colour photographs inside the magazine. Although the contents has not changed very much, it should sell very well. This edition looks at the emergence of the ufo phenomenon over the centuries, ufos on film, alien abduction, project blue book and an interview with Bob Oechsler. It will be interesting to see over the months, how the magazine sells in the British newsagents. For more details, contact : UFO MAGAZINE, P.O BOX XG60, LEEDS, LS15 9XD.

ANDOVER UFO GROUP : 6/95 No 5 :  
-----

This is a very nicely produced and laid out newsletter and should be in any local Hampshire investigators collection. It contains a number of recent ufo sightings in Hampshire and Wiltshire, and a look at the Lopscombe Corner crop circle formation of a Scorpion. For more details, contact : Malcolm Terry, 13 Newbury Road, Enham Alamein, Andover, Hampshire, SP11 6HQ.

SOUTHERN PARANORMAL INVESTIGATIONS (PORTSMOUTH) : No 7 1994 :

THE NEW UFOLOGIST : No 1 1994 :  
-----

This is the new magazine to look out for for the 1990's. When I read it, I thought that it knocked the spots off other ufo magazines and is a must for the 1990's ufologist. With contributors such as Jenny Randles, Paul Devereux, Paul Fuller, and Albert Budden. The only 'Criticism' I have about the magazine, is the fact, that there are no pictures or illustrations, inside the magazine (Although I understand that this is being looked into). For my money, you cannot go wrong

with this new magazine. For more details, contact : The New UFOlogist, 71 Knight Avenue, Canterbury, Kent, CT2 8PY.

UNSOLVED UFO SIGHTINGS : SUMMER 1994 (USA) :  
-----

Another American 'Pulp' magazine that looks at such subjects as Emil Rodriguez's ufo encounters, Ufo crisis in the U.K (by Jenny Randles), the grand deception - fact v fiction, the day a ufo crashed inside Russia and much more.

I.U.F.O.P.R.A NEWSLETTER : July/August 94 (5) :  
-----

This monthly Newsletter keeps you abreast of things between the publication of the groups quarterly magazine. This edition has a Roswell update, and local news.

I.U.F.O.P.R.A JOURNAL : Vol 2 Issue 4 1994 :  
-----

What can I say about this Journal, but fantastic. The layout is superb as are the graphics. The Journal looks at Roswell, contactees or con-artists ?, ghosts, USAF top secret - area 51, the Mary Celeste, The Bermuda triangle and a great deal more. My newsletter gets 3rd of a page advert, which I was very impressed with and I thank Pat and the other members for including my newsletter in the Journal. I suggest that this Journal should become an increasing part in anyones ufo collection. For more details, contact : IUFOFRA, P.O. BOX 3070, WHITEHALL, DUBLIN 9, IRELAND.

EMUFORA : Vol 1 No 2 SUMMER 1994 :  
-----

Another new magazine on the ufo magazine circuit and yet another one worth adding to your collection. Packed with news and information, with articles looking at the crop circle season, A - Z of Faces - Places - Cases in Ufology (I wonder if I will make it !), letter page of a readers encounter, the Nordics, and much more. For more details, contact : EMUFORA, 8 ROOSA CLOSE, BULWELL, NOTTINGHAM, NG6 7BL.

PEGASUS : SPRING 1995 :  
-----

I received an advance copy of the Spring 95 edition of this very interesting magazine. This edition looks at a ufo abduction in Suffolk in 1983, a Hungarian ufo clinic, The Russian Ufo Press, The Fisherman's Tale, Adamski type ufo in Cornwall and much much more. For more details, contact : SIGAP, 126 Grange Road, Guildford, Surrey, GU2 6QP.

I am sorry if I have not reviewed your magazine this month if you sent me one, but I simply run out of space. I will review any magazines that I have missed this month, in the August edition of the newsletter. ED.

#### Video & Audio Tape Catalogue :

---

I currently hold in my collection 116 Video tapes on VHS format covering a period from the early 1950's to 1994. I also have over 271 audio tapes. These range from 1 minute to 3 hrs in length. A catalogue is available at £1.50 including postage etc from the editors address on the front page of this newsletter.

#### Letter from Mr Edward Ashpole.

---

On the 21.6.94, I received a very interesting letter from Edward Ashpole, Science Writer and Consultant. A couple of years ago, he was asked to write a short piece which briefly explained the connection between what we might call astronomical SETI and the ETH of ufology (What follows has been slightly edited) :

#### 'THE ETH OF UFOLOGY & SETI SCIENCE'.

---

I know that some ufologists discount the extraterrestrial hypothesis ( the ETH ), and it may be that the majority of unexplained cases have non-extraterrestrial causes. Yet that doesn't rule out the ETH. The strength of this hypothesis is that it is compatible with the background science of SETI

( Search For Extraterrestrial Intelligence ) in which radio astronomers and computer scientists are searching for broadcasts from other world civilisations.

It's very important to emphasize that the ETH of ufology has the same scientific base as astronomical SETI. And everyone interested in the ETH really needs to be aware of the relevant science that's on offer. SETI has become an established part of science, though a small part, during the past four decades, and now has its own section in the International Astronomical Union to prove it.

The point is that the most credible cases in ufology, which indicate that flying saucers may have a physical reality, provide the sort of phenomena we should expect if the background science to SETI is roughly correct. But few people in the scientific community are even aware of this.

Meanwhile the SETI programs which are searching for broadcasts from other world civilisations continue to grow in technical power. That's fine, but it's also desirable to test any scientific hypothesis in as many ways as possible, and especially so when one is trying to prove the universality of life, which is what SETI is trying to do. Searching for alien broadcasts is only one way.

If other world civilisations have the technology to broadcast messages across interstellar space, then they may be equally able to send spacecraft to the Solar System. Spacecraft, if they reached their target, would at least provide a pay-off in terms of information. On the other hand, transmitting messages is a gamble. No one may be around at the right time with the right equipment and tuned into the right frequencies to receive your message and reply. But the ETH of ufology has to be tested in a rigorously scientific manner, and so far very few people have tried to do this ".

Mr Ashpole is currently offering his book 'THE SEARCH FOR EXTRATERRESTRIAL INTELLIGENCE' for sale direct from him for £3.50 PBK. ( I will be reviewing the book in a forthcoming edition of the newsletter.) including postage.

For his next book, he is trying to track down information of any research anywhere which deals with physical research (not psychological research) which is relevant to testing the ETH, and work presented on a scientific level.

He is after copies of the following two journals, which he would like to read through (I don't hold any copies...ED) :

1. THE JOURNAL OF UFO STUDIES (PUBLISHED BY CUFOS).
2. JOURNAL OF SCIENTIFIC EXPLORATION.

If anyone takes either of the above journals and can help Mr Ashpole, the could you please contact him at the following address : Aboyne Castle, Aboyne, Aberdeenshire AB34 5JP (Up until August 1994 ), Or Greenfield Cottage, Gilfach Hill, Lampeter Velfrey, Narberth, Pembrokeshire, Dyfed, SA67 8UL ( After August 94).

A NIGHT OUT.  
-----

On Monday 27th June, I attended a meeting of AUPIN, at El Alaman, Nr Andover. I arrived at about 1930hrs, after taking the more scenic route via Basingstoke ( about 10 miles in the opposite direction !! ). That reminds me, I must sack my map reader on the trip, Mr Tom Trubridge, who I think had the map upside down !!!!.

We met Malcolm Terry at his house and made our way to the venue, about half a mile away. Both Tom and I were made very welcome by the group. There were about 11 members of the group present, and they all seemed very enthusiastic.

Malcolm carried on with the groups business and Tom and I were brought in to the second half of the meeting. I gave the group an insight into my group and a general discussion then ensued about the 1994 crop circle formations. The meeting finished at about 10pm and Tom and I returned to Malcolms home and discussed some ufo photographs Malcolm showed us and a general natter ensued about ufology.

I hope to go along to one of Malcolm's meeting at the end of the summer to show a video or two to his group.

I would like to thank Malcolm and his group for a very enjoyable evening and for making us most welcomed.
